

Jarvis Laminate

Laminate top

Laminate desktop is coated with GREENGUARD laminate, a certified low-VOC, zero urea-formaldehyde water-based adhesive that gives your desk the protection it needs to be tough without releasing any toxic air pollutants of any kind. The core is made of a heavy-duty, high-density particle board made of 100% pre-consumer recycled wood fiber.

Frame

The Jarvis frame has an industry-leading 350 lb. lifting capacity and we offer two desk range options: Extended Range and Mid-Range. Our mid-range option doesn't go as low or high, but works for 85% of adult heights. Heavier steel feet and a lifting column that's wider at the bottom means a more grounded desk.

Jarvis Laminate

Top specs

- Thickness: 0.8"
- Width from 48" - 72"
- Core material made of 100% recycled wood fiber particle board (certified by SCS)
- Surface material is HPL (high pressure laminate) which is GREENGUARD Indoor Air Quality Certified® and GREENGUARD for Children and Schools Certified®.

Top options

- Rectangle only
- Maple: [30" x 27", 42" x 27" with grommets] [48" x 30", 60" x 30", 72" x 30", 78" x 30" without grommets]
- Mahogany: [42" x 27" with grommets] [48" x 30", 60" x 30", 72" x 30" without grommets]
- Walnut: [30" x 27", 42" x 27" with grommets] [48" x 30", 60" x 30", 72" x 30", 78" x 30" without grommets]
- Whiteboard: [48" x 30", 60" x 30", 72" x 30" with grommets] [30" x 27", 42" x 27" without grommets]
- Designer White: [48" x 30", 60" x 30" with grommets]
- Graphite [48" x 30", 60" x 30" with grommets]
- Spacestation Black [48" x 30", 60" x 30", 72" x 30" with grommets]
- Grommet holes for tops 48" and larger are positioned on the back left and right edges of the desk (near where your computer might be). Tops 42" and smaller will come with a single back centered grommet hole.
- The drilled openings are circular and measure 80mm (approximately 3.15") in diameter.
- Covers are available in Black or White.
- We also offer powered grommets, which are also available in black or white.
- Our powered grommets include one AC outlet, one USB-C and one USB-A port, so you can plug in up to 3 devices per grommet. You can upgrade zero, one, or both of your grommets.

Frame

- Frame color options: black, white, silver, alloy
- Powder coated frame
- Narrow: recommended for tops 26" - 47" and Wide: recommended for tops 44" - 82"
- Mid-range Jarvis Frame: Height adjustable from 26.5" to 45.75" (without top)
- Extended-range Jarvis Frame: Height adjustable from 23.75" to 49.25" (without top)
- Mid-range Frame: Adjustment speed of 1.3" per second with soft start/stop
- Extended-range Frame : Adjustment speed of 1.5" per second with soft start/stop
- 350 lb lifting capacity (inclusive of top weights)
- Adjustable foot leveling studs for uneven flooring (0.25" adjustment)
- Operating noise less than 50dB
- Frame: JIS grade G 3141 SPCC cold rolled steel
- [Industry-leading warranty](#): 7 years on all frame, mechanical, and electrical components

Standard Particleboard

- M3 industrial grade 47 lb. density particleboard
- 100% pre-consumer recycled wood fiber particleboard. Particleboard is at least 90% wood fiber by weight
- Meets California Air Resources Board (CARB) Regulation 93120.2, Phase 2 emissions limits
- No Added Urea-Formaldehyde (NAUF) Particleboard
- Collaborative for High Performance Schools (CHPS) Section 01350 Compliant
- Environmentally Preferable Product (EPP) Certified by the Composite Panel Association

High Pressure Laminate (HPL)

- Group 1 Laminate is GREENGUARD Indoor Air Quality Certified® and GREENGUARD Gold Certified® (formerly known as Greenguard Children and Schools)
- Wilsonart, Formica, Nevamar and Pionite laminates are GREENGUARD Indoor Air Quality Certified® and GREENGUARD Gold Certified®

Adhesive

- Water based adhesive
- Low VOC emissions
- Does not contain urea-formaldehyde
- Laminate adhesive is GREENGUARD Indoor Air Quality Certified®

Edge Materials

- Plastic Edge: 2mm ABS plastic edges are available in an array of standard colors
- ABS is a recyclable plastic, unlike PVC material
- Chlorine-free polymer can be incinerated
- Anti-static properties will not collect dust

Handset

- Simple Up/Down handset: 2.35" wide x 1.15" tall
- Programmable Memory handset: 5.7" wide x 1.25" tall

Electrical specs

- Voltage: Input 110v / Output: 31V
- Transformer power: 200W (0.2 on standby)
- Power supply current 5 amps

Standards/Certifications

FOREST STEWARDSHIP COUNCIL® (FSC®) is an independent, non-governmental, not of the world's forests. It provides standard setting, trademark assurance and accreditation services for companies and organizations interested in responsible forestry. Products carrying the FSC label are independently certified to assure consumers that they come from forests that are managed to meet the social, economic and ecological needs of present and future generations. FSC has offices in more than 45 countries. **SurfaceWorks is FSC Mix certified; our FSC License Code is FSC-C014142** SCS GLOBAL SERVICES is global leader in independent certification of environmental, sustainability, food quality and food purity claims. Over two decades, SCS has developed internationally recognized standards and certification programs aimed at spurring the highest level of environmental improvements, social accountability and product performance. Its programs span a wide cross section of the economy, recognizing accomplishments in agricultural production, food processing and handling, forestry, fisheries, flowers and plants, energy, green building, consumer and business product manufacturing, and corporate social responsibility.

SurfaceWorks has contracted SCS for third party verification in two certifications: FSC® Chain of Custody certification and Indoor Advantage and Indoor Advantage Gold certification.

SCS INDOOR ADVANTAGE AND INDOOR ADVANTAGE GOLD are Indoor air quality certification programs. The VOC criteria for the Indoor Advantage certification are based on emission criteria established in the Business and Institutional Furniture Manufacturer's Association (BIFMA) Standard for Low-Emitting Office Furniture Systems and Seating (ANSI/BIFMA X7.1) and the US Green Building Council's Leadership in Energy and Environmental Design criteria EQ4.5 (furniture and seating). Indoor Advantage Gold is a more rigorous test. The emphasis on individual VOCs rather than on total VOC concentration is one of the features that distinguish the SCS Indoor Advantage Gold program.

SurfaceWorks entire line of tables, table tops and worksurfaces are either Indoor Advantage™ or Indoor Advantage™ Gold certified. Our Indoor Advantage™ certificate number is SCS-IAQ-02071 and our Indoor Advantage™ Gold certificate number is SCS-IAQ- 02194.

Care & Use

To maintain the beauty of decorative laminates, clean with a solution of liquid dishwashing detergent and warm water. Dry with a clean, non-abrasive cloth. This should remove most stains from the surface.

For stubborn stains, use a house-hold cleaner such as Formula 409®, Fantastik®, Windex®, or diluted Simple Green®. It may be necessary to use a soft bristle brush with light scrubbing to assist in removing the stain.

If stain persists, try a mixture of baking soda and water. Apply with a soft bristle brush and lightly scrub for 10-20 strokes. Baking soda is a mild abrasive cleaner, use as instructed. Another option is undiluted bleach, immediately rinsing with warm water. Do not allow bleach to sit on stain for more than 1-1/2 minutes.

WARNING: Prolonged exposure of bleach to laminate will cause discoloration.

DO NOT USE any type of abrasive cleaners, as this will cause scratching and discoloration of laminate. Use baking soda as instructed above.

For high gloss laminates, clean with a solution of liquid dishwashing detergent and warm water. Dry with a clean non-abrasive cloth; this cleaning will probably leave streak marks. To remove streaks, add a final cleaning using glass cleaner with ammonia. Dry with a clean, non-abrasive cloth.
